## PROFESSIONAL EXPERIENCE

### RENTAL TECHNICIAN - VAIL RESORTS

*Rental store in Frisco, Colorado. December 2019 - March 2020*

Responsibilities and tasks:

- Customer service: Greet customers and guide them to what they are looking for.
- Rental assistance: Set customers with proper skis and boots based in ski level, weight and size.
- Results: I learnt all about customer service and was able to provide a great experience.
- Reference: Drew Porter (manager) - Aporter1@vailresorts.com

### LEAD TECHNICIAN- ECOVATIO S.A.

*Renewable energy startup in Cordoba, Argentina. December 2018 - december 2019*

Responsibility and tasks:

- Solar panels grid design: I was in charge of choosing the technology, amount and disposition of the solar panels and inverter in a house or business, based on clients preference.
- Project management: I was in charge of supervising and manage the installation of the solar panels and inverter.
- Results: Affordable design and proper technologies that made possible the growth of the company.
- Reference: Andrés Oberti (CEO) - 54 9 351 7459448

### DRAFTING TECHNICIAN - SOLFLIX S.A

*Telecommunications company in Córdoba, Argentina. June 2014 - November 2018*

Responsibility and tasks:

- Optic fiber network design: My main tasks were determining the type of communication system, the geographic layout, the transmission equipment required and the fiber network over which it will operate. We can also consider actual component selection, placement, installation, testing, troubleshooting and startup.
- Results: I was able to provide well optimized designs that saved the company thousands of dollars in materials.
- Reference: Ramiro Barone (Technical verification manager) - 54 9 351 7539767

### AUTOMOTIVE TECHNICIAN

*Cordoba, Argentina. March 2011 - May 2014*

- Responsibility and tasks: I would solve common mechanical problems and do preventive maintenance in cars.
- Results: I was able to learn how to manage a small business.
